Scenerio # 1

Select a bull to be used as a terminal sire on large framed crossbred cattle. Ownership of the entire calf crop is retained through the feedlot and marketed on a grid that favors premiums for improved yield grade.

Bull picked

Reason:

Scenerio #2

Select a bull to be used on first calf-heifers. All of the steers will be sold at weaning time and half of the heifers will be retained as replacements.

Bull picked

Reason:
